01 / FIA WORLD RALLY CHAMPIONSHIP

What is Rally?

Kick the ground. Cut through the wind. Chase the edge.

From asphalt and gravel to snow-packed trails, public roads around the world become the stage for man and machine to race for the fastest time.

In a world where even the next second is unpredictable, drivers unleash their ultimate skills behind the wheels. Split-second decisions decide the outcome, and the trust between driver and co-driver is the key to victory.

They never ease off no matter what, and that fearless pursuit captivates every heart.

Unmatched speed. Unforgettable adrenaline. Welcome to the world of rally, where limits are meant to be broken.

RALLY vs F1 WHAT'S THE DIFFERENCE?

When you think of motorsports, chances are F1 comes to mind. But rally is a whole different kind of thrill. Here's a simple breakdown of how rally and F1 are different.

Different race environments!

Driven by two!

Different ways to compete for speed!
