

# Rally Japan 2023 Waste separation guide

- Please pack waste into bags according to the following Waste Separation Classification and bring them to the Designated Areas.
- Only overseas competitors may bring their waste to the designated area. Domestic competitors are requested to take their waste home.

## < Waste Separation Classification >

### ① Burnable Garbage

food scraps, paper scraps, wood scraps, etc

### ② Plastic

Vinyl,  
all plastic products,  
Styrofoam, etc

### ③ PET Bottles

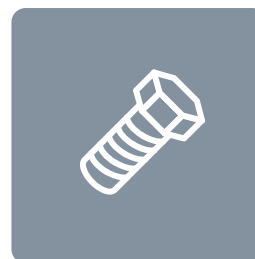

### ④ Glass Bottles

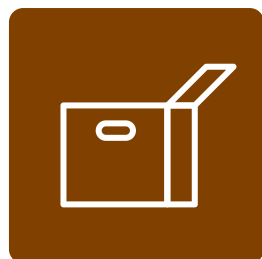

### ⑤ Beverage Cans

### ⑥ Glass Waste

### ⑦ Metal Waste

### ⑧ Cardboard

## < Waste that cannot be disposed of >

Basically, the organisers will not be able to dispose of any items that are not classified in the above categories.

In particular, each team is responsible for disposing of the following items.

- Industrial batteries (lead-acid batteries)
- Fuel (gasoline, etc.)
- Gas cylinders

## < Designated Areas >
